EDUCATION

Masters, Computer Science (Honors)

University of Southern California, USA

GPA - 4.0 | Merit Holder for Academic Excellence

Jan 2021–May 2022

Bachelors, Computer Science and Engineering

Indira Gandhi Delhi Technical University, India

GPA - 10.0 | University Topper and Valedictorian

Aug 2014–May 2018

EXPERIENCE

Google, Inc

Software Development Engineer III

Jul 2022–Present

- Building and maintaining the cluster management software for nearly all production machines and all PAs in Google.
- Responsible for the datacenter-level control plane and scheduler that orchestrates workloads across the various machines in a specific datacenter, as well as our next generation cross-datacenter control plane.

Goldman Sachs, Inc

Senior Technical Analyst

Sep 2019–Jan 2021

- Created post-execution trade processing services in Asset Management Division; decreasing the delay by 200%.
- Led development of a Module-Based, Data Driven, and Library Architecture framework for regression and load testing; reducing overall testing time by 90%.

Expedia Group, Inc

Software Development Engineer

Jul 2018–Sep 2019

- Recommended and implemented automated solutions to monitor and assist company's development and release process; optimising user experience and system functionality by 65%.
- Devised software to do repetitive tasks of engineering & automation team; improving overall team productivity by 45%.

HONORS AND AWARDS

- Gold Medalist (Valedictorian): Chancellor Gold Medal | Vice Chancellor Gold Medal | Exemplary Performance Plaque
- National Awards: Third and First prize in Smart India Hackathon 2018 and 2017 (awarded by Govt. of India and AICTE)
- Scholarships: Grace Hopper Celebration 2017 | Monetary scholarship of 6000 USD under Inspire Scheme by CBSE

PROJECTS

- Rakshak Arohan - Ministry of Assam, India: Partnered with public safety department to pioneer algorithms to predict, plot and view real time crime status using ML for accurate analysis and reducing threat response time by 30%.
- Travel Buddy - Vistara Airlines: Attracted 100+ daily customers to travel by Vistara airlines by providing personalized offers based on Twitter handles and local trends using ML paradigms.
- Shikshak Arohan - Ministry for Protection of Child Rights, India: Provided a comprehensive solution to digitize tracking system for teachers in more than 2500+ government schools.

TECHNICAL SKILLS

- Programming Languages: C, C++, Java, Python, C#, HTML5/CSS, PHP, JavaScript, Erlang
- Web Technologies: Spring Boot, Hibernate, React, Django, Amazon Web Services (AWS), nodeJS, Drupal, WordPress
- Machine Learning Technologies: Numpy, PyTorch, TensorFlow, Scikit-learn, Pandas, Keras
- Tools/Databases: Kafka, Jira, Git, Grafana, Elasticsearch, MySQL, PostgreSQL, Redis, MongoDB
